

Laura Samà

Medical Doctor

OBJECTIVE

Over the last year, I have improved my medical and surgical knowledge, and also, I have increased my commitment towards research. Additionally, I am very interested in evidence-based, high quality courses and congresses. Furthermore, I attended several scientific national and international surgical congresses contributing with written and oral presentations. During my residency, I have developed a specific interest in Sarcoma Surgery. I have a great dedication to work and I am enthusiastic in learning scientific notions and technical maneuvers. I am very determined in overcoming novel challenges and unexpected obstacles with the objective of continual self-improvement.
